

Religion and Emergency Rules

PI: Prof. Pierluigi Consorti

CUP: I53D23002960006

Instructions

1. Personal Information

- **Full Name:** Marco Geri
- **Local Unit:** Pisa
- **Role in the Project:** *Researcher*

2. Description of research activity undertaken

As a legal historian, I began research on papal law during the First and Second World Wars. I also organized a specific lesson for the students of the History of Law course on the topic "War and Peace in the Catholic Magisterium. The historical evolution between the nineteenth and twentieth centuries" (November 2024). Finally, as part of a more comprehensive project of discussions on the sidelines of themed film screenings, I organized the screening of the feature film "The Battle of Hacksaw Ridge" directed by M. Gibson (December 2024).

3. Research Outputs and Outcomes

B) Organization of conferences and seminars related to the project themes

- *As in the description*

4. Additional Notes or Comments

Research on papal legislation has not yet produced an internal report because it is still in progress, as the aim is to file both regulatory measures and judicial and doctrinal interventions. The debate on the sidelines of the lecture to the students of the legal history course (ca. 150) and the screening of the film had a considerable impact on the audience.
